SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The DoDEA Customer Satisfaction Survey is a tool used to measure the satisfaction level of parents, students, and teachers with the programs and services provided by the DoD Education Activity (DoDEA), in order to meet DoD Reform Initiative Directive #23: Defense Agency Performance Contracts which states: "The Directors of the specified Agencies and Field Activities will submit a performance contract covering the period of the Future Years Defense Plan (FYDP) FY 2000 through FY 2005. Each performance contract shall include measures of customer satisfaction with the goods and services provided by the Agency or Field Activity, including the timeliness of deliveries of products and services".

The DoDEA Customer Satisfaction Survey will be administered to all parents and teachers within the DoDEA school system, as well as students in grades 4-12. The survey is completely voluntary and will be administered through an on-line, web-based technology. The survey questions were adapted from the Phi Delta Kappa/Gallup Poll of the Public's Attitudes Toward Schools in order to have national comparison data. Some questions were altered slightly so that the wording more closely matched the DoDEA experience, however, any alterations should not affect the interpretation and comparison to the national data. The survey will give parents, students and teachers an opportunity to comment on their level of satisfaction with programmatic issues related to DoD schools. Some of the

topics included on the survey are curriculum, communication, and technology. The surveys will be administered biennially.

The information derived from this survey will be used in the improvement planning efforts at all levels throughout DoDEA. Schools, districts and areas will use the results to gain insight into the satisfaction levels of their parents, students, and teachers which will be one of many measures used for further planning of programs and services offered to DoDEA's students. DoDEA system results will be used to monitor the strategic plan as well as be a part of the Director's performance contract with the DoD.

June 18, 2001.
